

Data Flow Diagram

Data Flow Diagram

Create a Data Flow Diagram (DFD) to show how data moves through your system - between external entities, processes, and data stores. Use the symbol legend below as a guide.

DFD Symbol Legend

From	To	Data Flow
Student	Login Process	Username & Password
Login Process	Student Database	Verify Credentials
Student Database	Login Process	Login Status
Login Process	Student	Access Granted/Denied
Student	Registration Process	Student Details
Registration Process	Student Database	Save Student Data
Student Database	Registration Process	Confirmation
Registration Process	Student	Registration Successful

--

Example

The diagram below illustrates how the symbols above come together to form a complete data flow diagram.
